Dedication

The 1977 Hi-Lights is very honorably and respectfully dedicated to Mrs. Mary Sullivan and Mr. Albert Zimmermann.

This is Mrs. Sullivan's last year at HLCS but even after she leaves she will be long remembered for her dedication, concern, and service to the entire student body.

Mr. Zimmermann was not only a help to us scholastically but also personally. He always seems to have a smile and an encouraging word when things get a bit rough. Many thanks and appreciation.

This is a great place to learn, a great place to work, a great place to be. Did we say place? It's much more .. much more than bricks and mortar, classrooms and media centers, cafeterias and gyms. It's people. It's you. You ARE what makes Hadley Luzerne Central school great.

In these pages that follow we have tried to give you a flavor of the people (students, teachers, staff, parents, interested citizens) who have been a big part of 1976-77.

The 112 pages in this hard cover book take a look at September through January. An 8 page supplement which fits into the rear of the book covers February through June; thus a complete school year.

Who are we? What are some of the things we do? Read on.

Throughout our lives you have
given of yourselves freely.

And we have taken, not giving
much in return.

You are the ones that have
brought us from
childhood dreams, to
life's realities.

For those things and many more,
we will remember forever.
As the years go by, and the
memories pile up,
yours will burn forever, like
an ember that never dies.

STUDENT LIFE

Honor Society

SCHOLARSHIP
the key to our reason
for being here each
day.

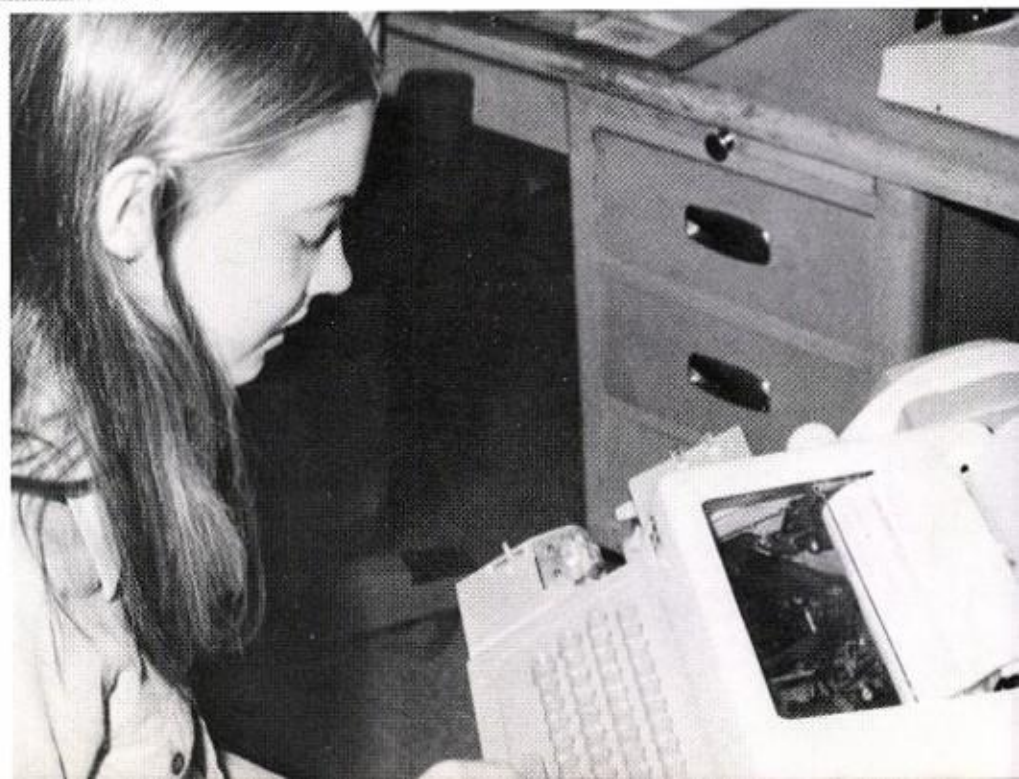

Learning not only
the sciences and arts
needed for our social
and occupational needs
of the future, the daily
classes are learning
centers for now.

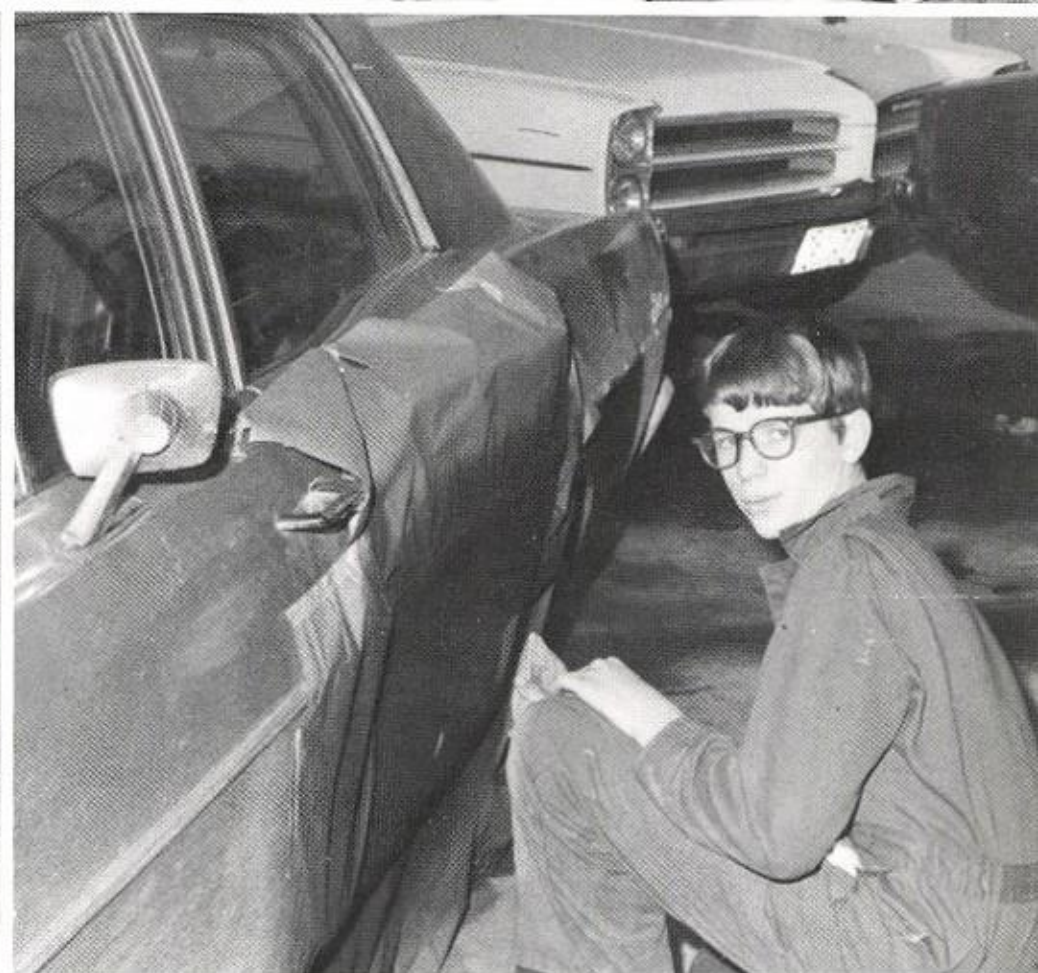

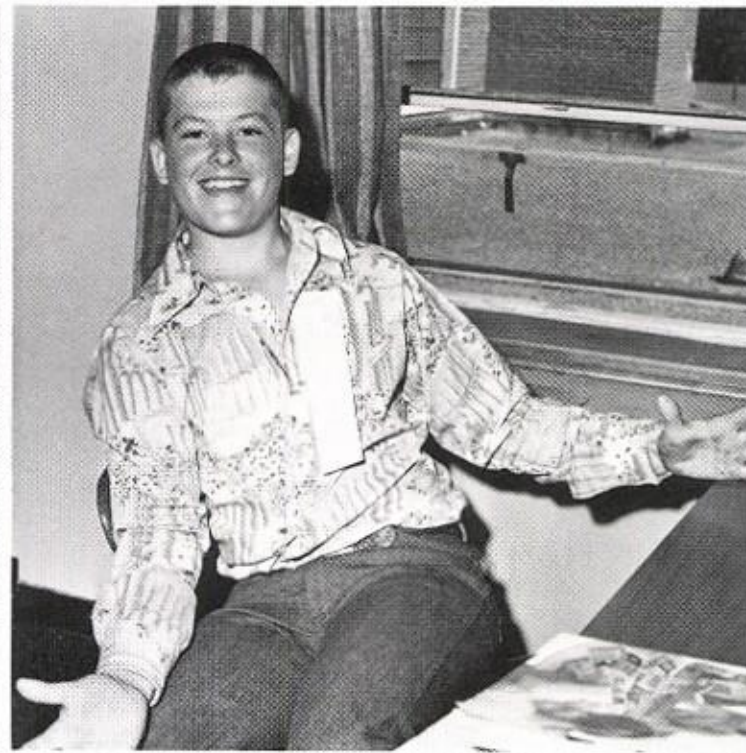

All the trappings of extra cur-
ricular activities are in support
of this ... the classroom work to
help us reach our finest scholas-
tic potential; a job we may kid
about, but most of us try to take
seriously.

Regents Scholarship Winners and alternates

such as Computer Science and Calculus
give the students added strengths to face
the future.

Life In The Classes

Sometimes We're Serious About What We Do . . .

Study halls were held in the cafeteria; as well as it being a general meeting place for rap sessions and informal conferences.

High school industrial arts classes, mechanical drawing classes, home economic classes, art classes and even kindergarten classes all got ideas flowing together to construct a chalet playhouse outside the kindergarten building.

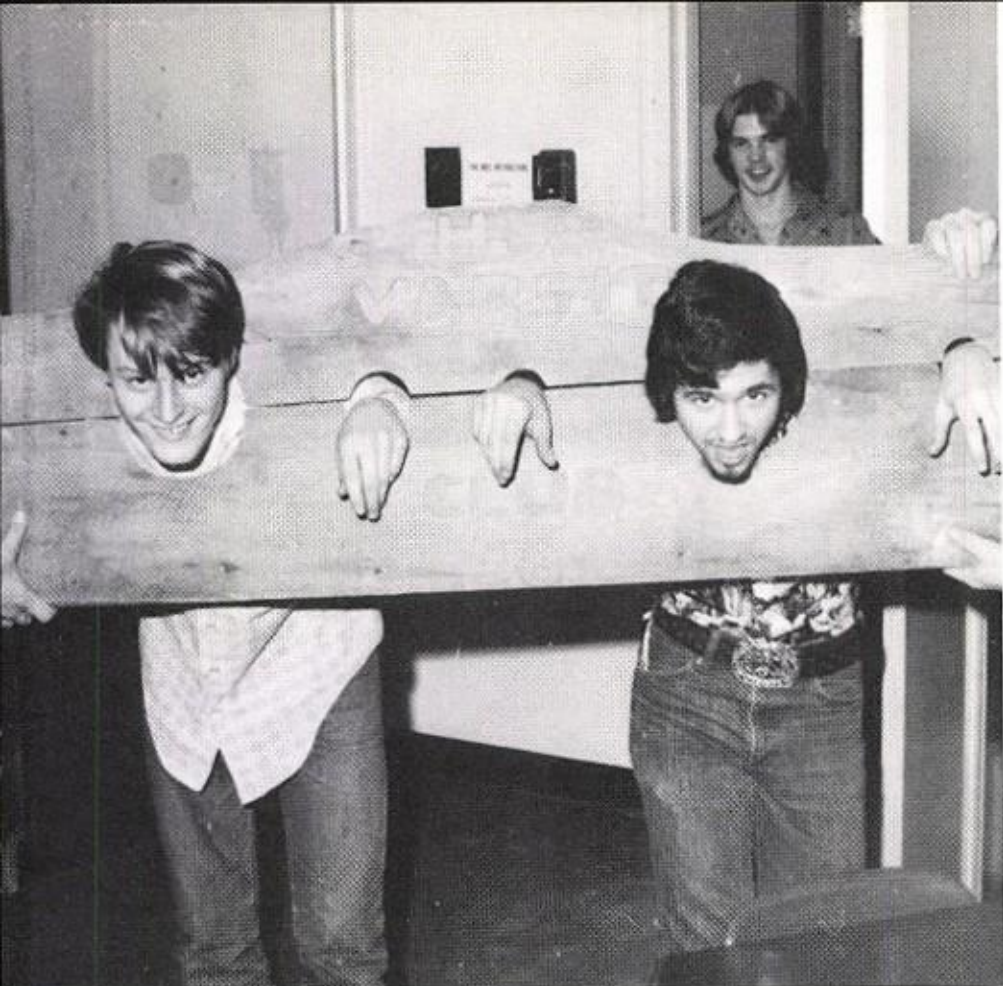

Student Council met regularly to help plan activities for the students as well as for the community.

Students at all grade levels pitched in to collect hundreds of cans for distribution of food locally.

And on an individual basis whether in sculpturing, reading, or just thinking in classes we tried to better ourselves.

Now a little hazing here and there can be fun, and there was a bit of it via the stocks made for the varsity club.

Representatives from each class entered the Mr and Mrs Ghoul contest. John Sanders was just one of them.

Flying off the slopes can be fun, if not a bit precarious as Al Esser shows. Not the best correct form ... but effective Friday night skiing at Hidden Valley was fun for many.

Sock it to the pinata That's the rule of the hour at the annual Foreign Language dinner and Christmas get together.

And Sometimes We're Not

From The Voices Of Angels . . .

comes the sound of our Christmas concert.

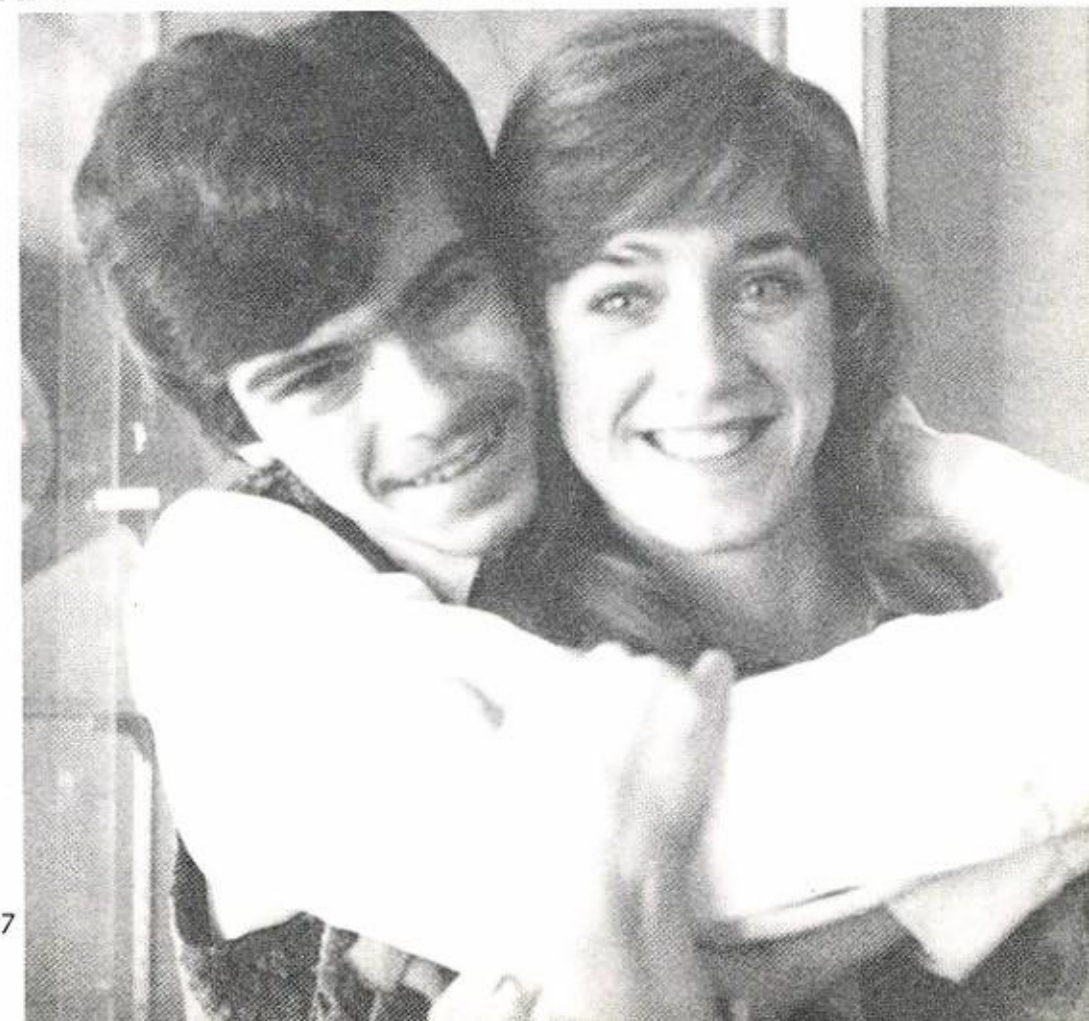

Top Left, Choral Cadets, Top Right, Elementary chorus. Above Left, Modern Classics. Above Right, high school chorus. Left, combined choruses (all of Above, plus middle school chorus).

The high school and middle school bands as usual contribute much to the success of the concerts.

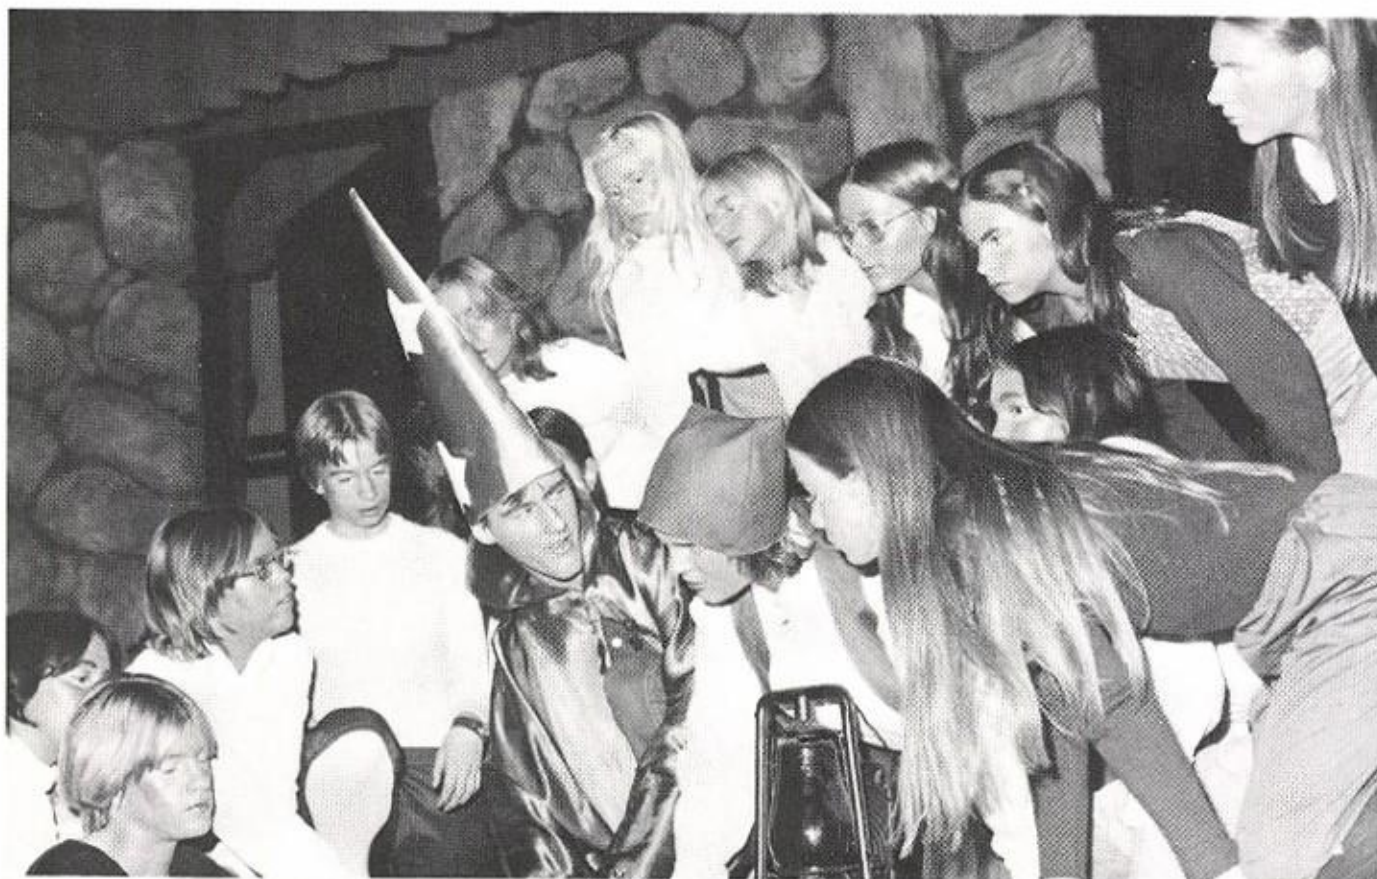

Music of another nature included the successful musical comedy The Pajama Game featuring Renee Cartier and Richard Quirion.

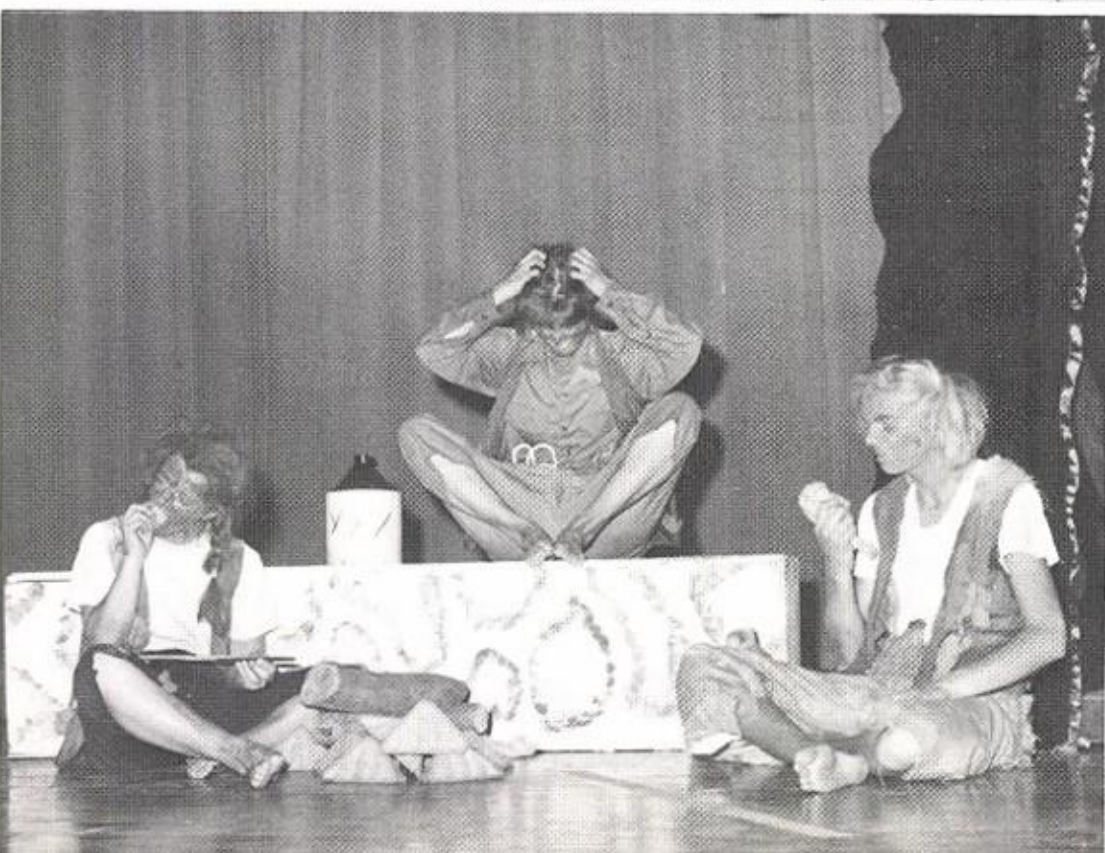

A supporting cast and crew of over 40 helped make an enjoyable weekend of theatre last Spring.

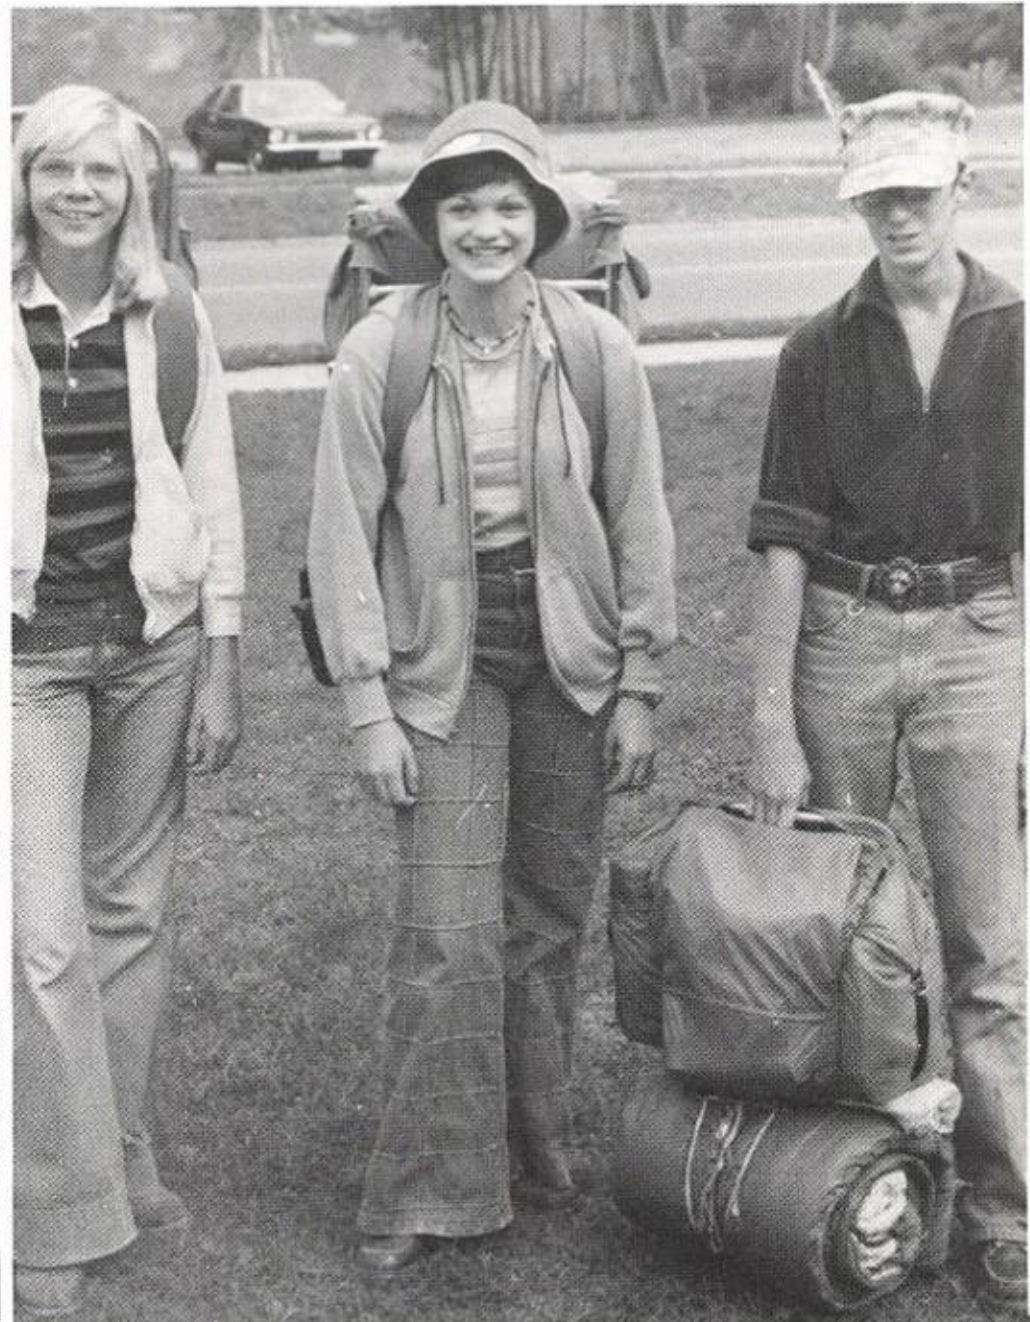

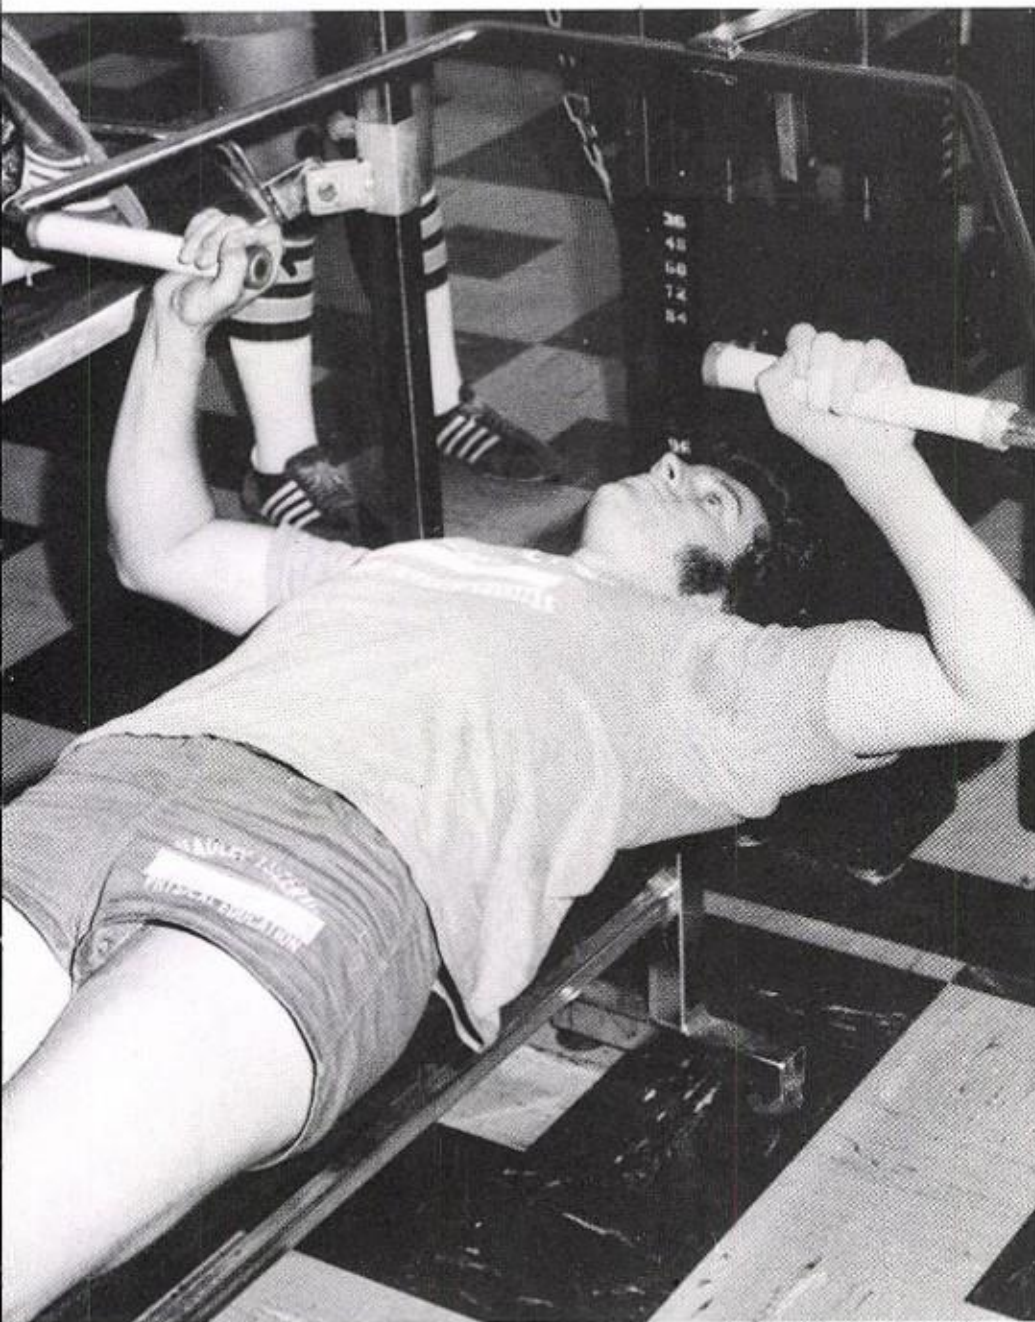

The Hobbit

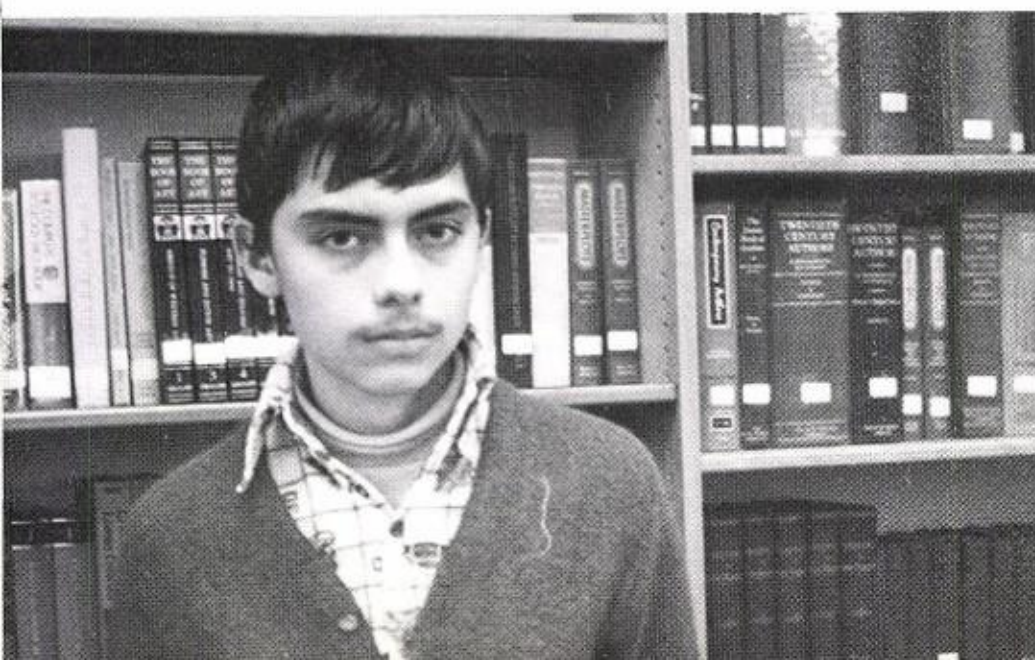

A "first" this year in drama at HL was the introduction of children's theatre. Trolls, goblins, dwarves, elves, a wizard, a queen and a dragon all came to life as the Hobbit was done in the Fall.

Much Is Accomplished Outside The Classroom

Keeping physically fit by working on the weights, or taking hikes with the out-
ing club or just meeting other people from
other lands as an exchange student or by
having exchange students here are a few
of the many ways we have kept tabs on all
phases of student life.

Laura Hoffman crowns Suzy Meyer queen. Jim Brewster is king and last year's king Steve LeClerc looks on.

Dream

Then comes the time when we shed our jeans and dress in gowns for the Junior Prom. The scene portrayed a land of fantasy and then a land of our own dreams; dreams that we hope come true and dreams that we will work for as our life's ambition.

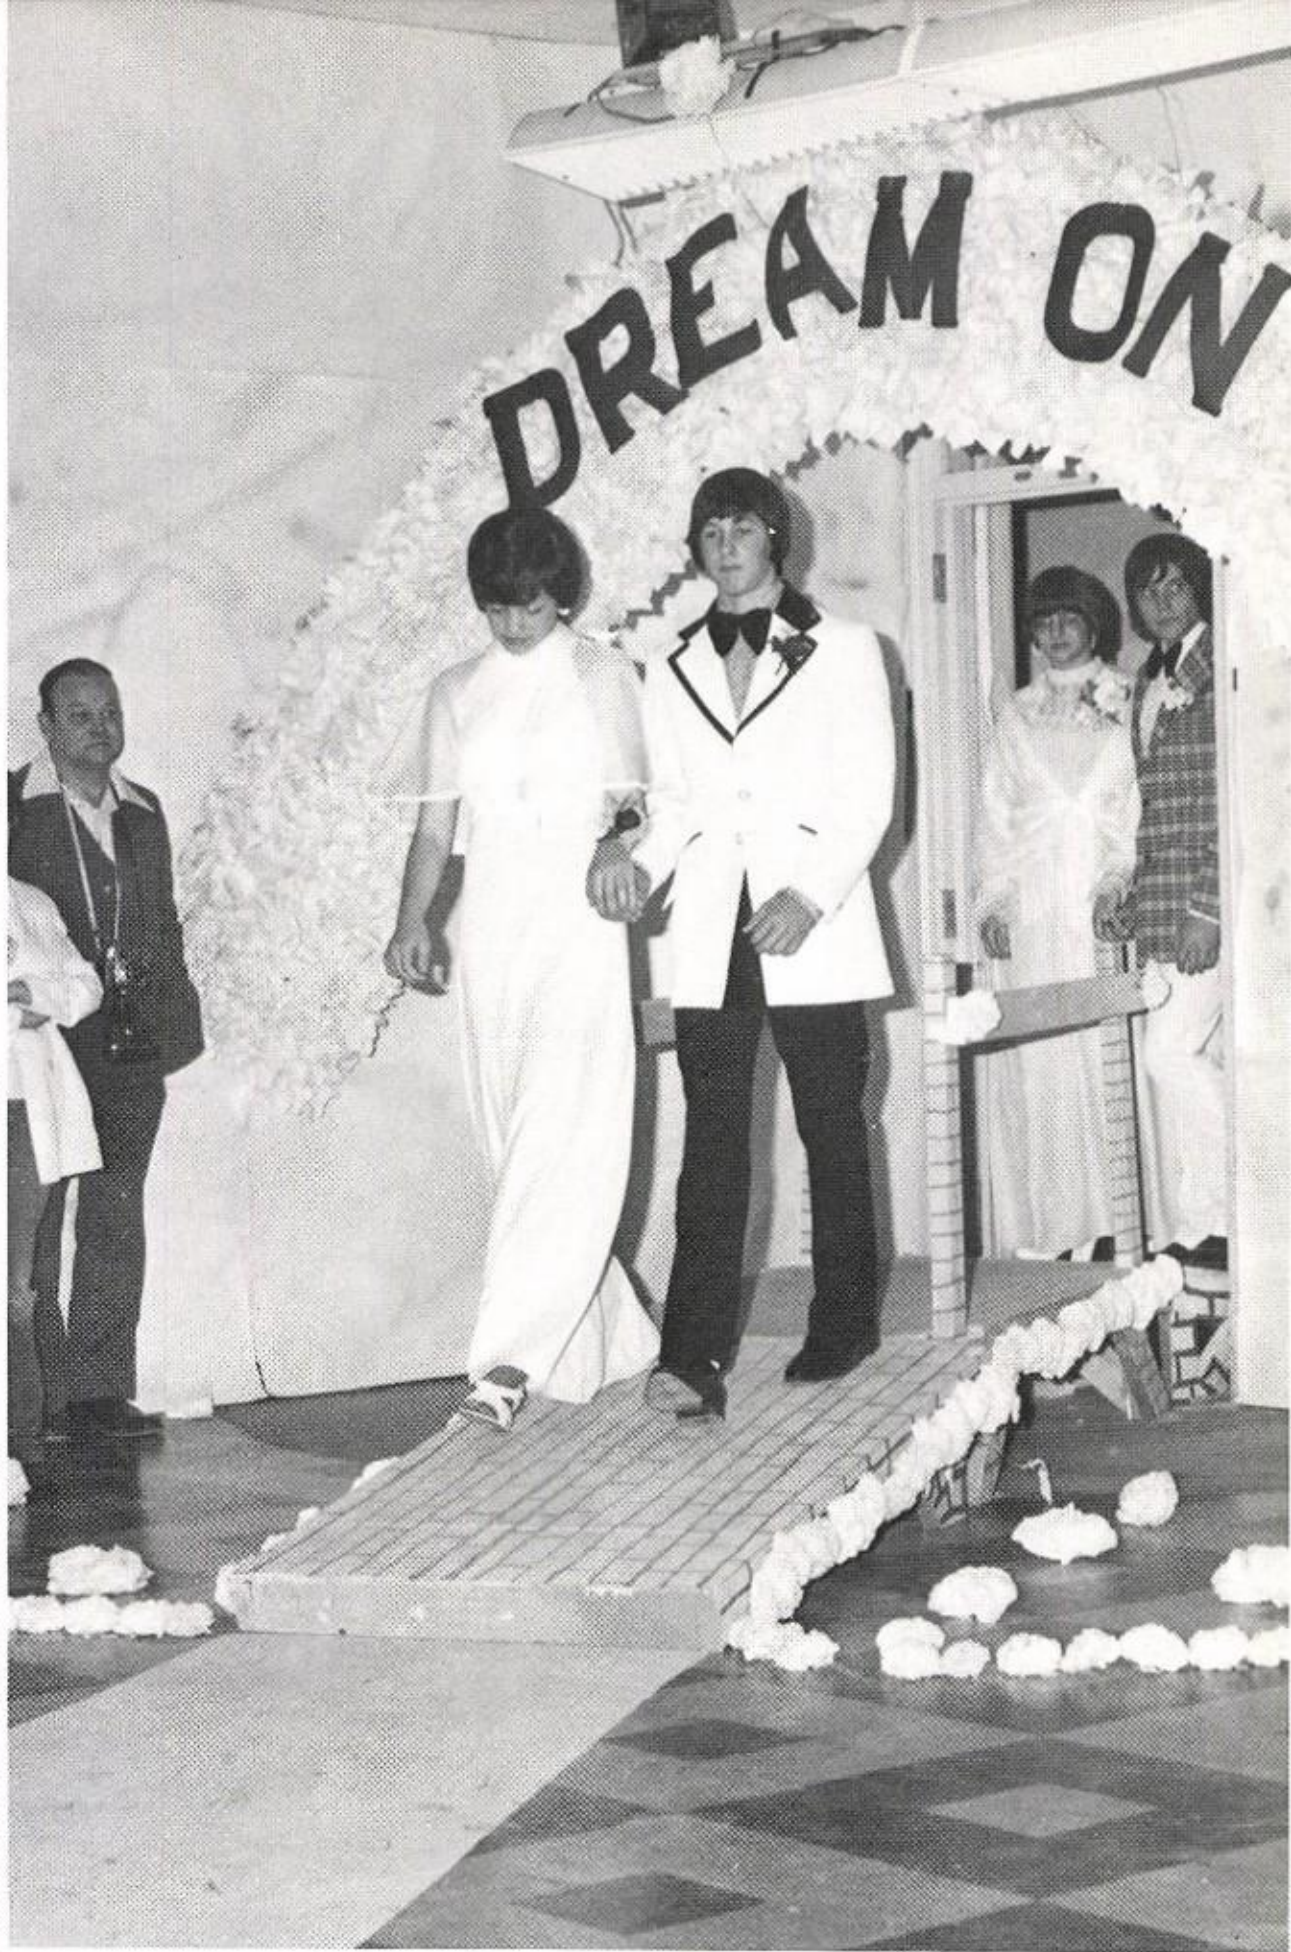

For Suzy Meyer and Jim Brewster one dream has been fulfilled as they became our queen and king.

On

Members of the 1976 court were Marcia Fernandes, Joan Miraglia, Diane Rawson, and Karen Waite. Others included Steve Fish, Jeff Graulich, Mark Siudy, and Mike Trotter.

Couples entered the transformed cafeteria beneath a huge rainbow and across a bridge. A throne designed and built by Scott Bourdeau was at the end of a yellow painted roadway. Murals were painted on the walls in fluorescent paint and illuminated magically from black lights hung from the ceiling. Music was provided by the Preludes.

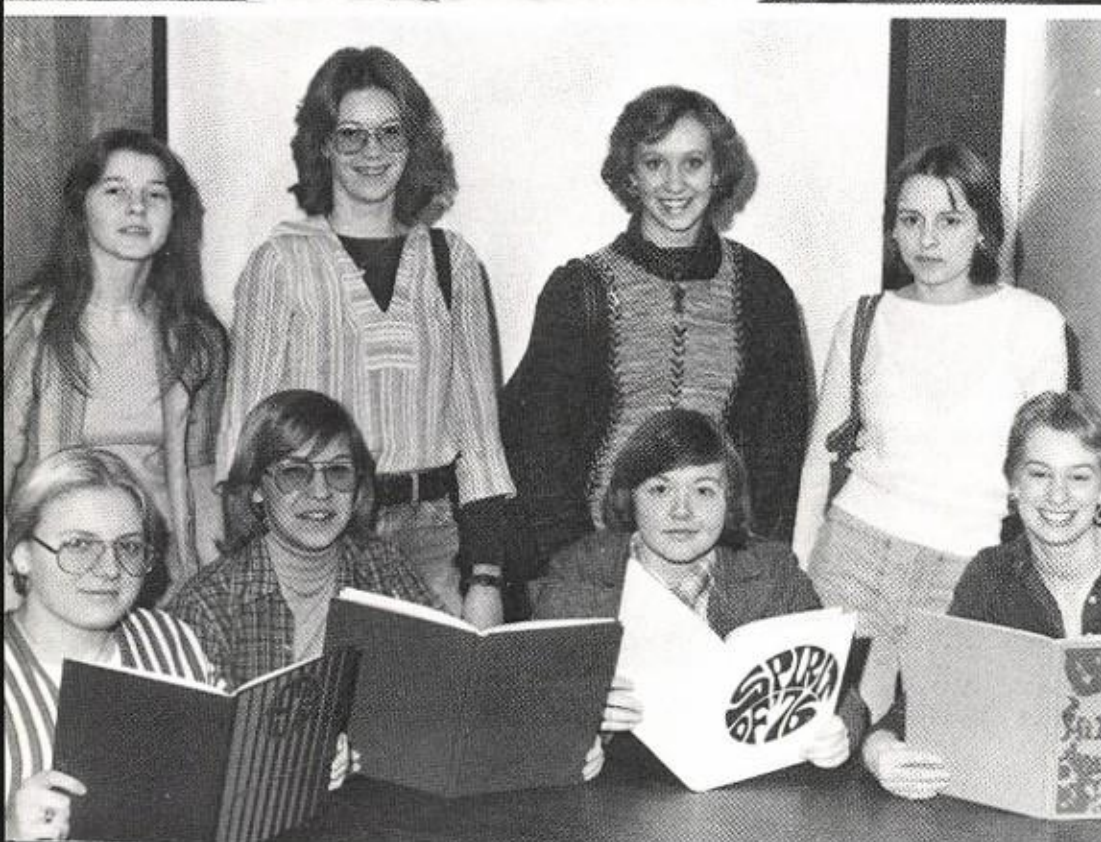

Karen Reynolds and Duane Aldrich enter followed by Carolyn Wright and Michael White.

Yearbook Staff

Each activity period and often before and after school, seniors were running about to gather information, take photographs, write and edit materials so that each of us could enjoy this year in memories. The business of selling advertisements and getting subscriptions to the book took much time and effort. The very activities involved in reporting on the activities of the year took much time between September and February . . and in themselves were a big part of our student life.

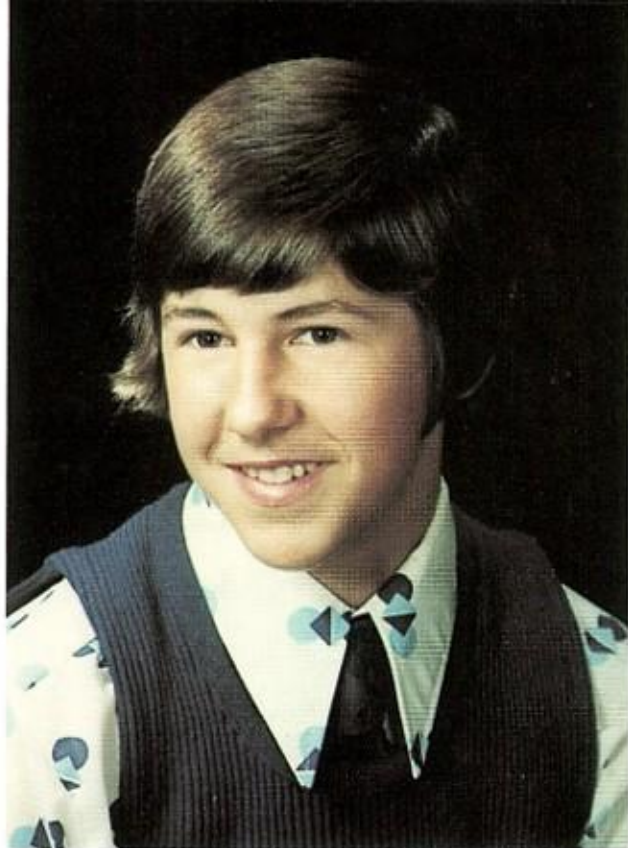

We have climbed till we have almost
reached our limits;
We have lived in a world we
built together;
We have shared till now we must
say our good-byes.
So where, where do we go
from here?

Seniors

enjoy life! Being close to those you care for, those who are "special" means more as a twelfth grader. Somehow a senior takes the time to know and to appreciate classmates.

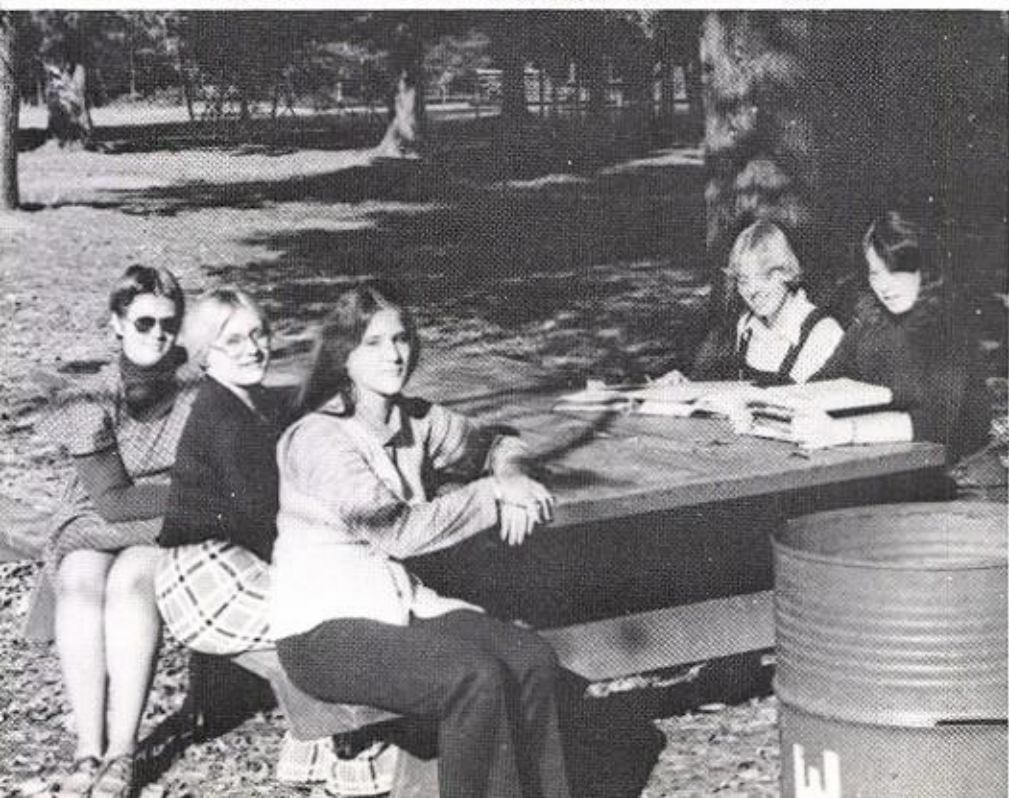

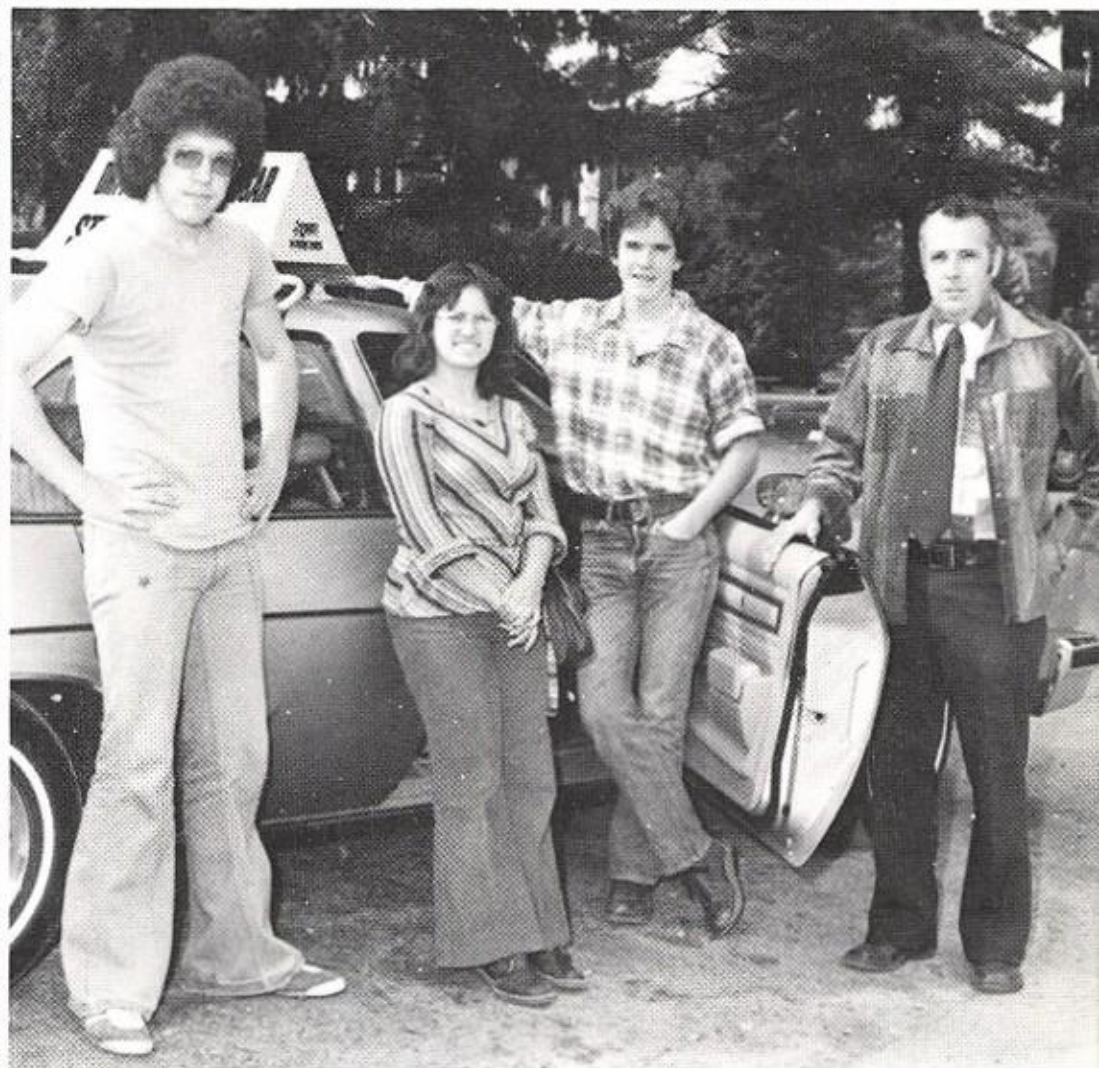

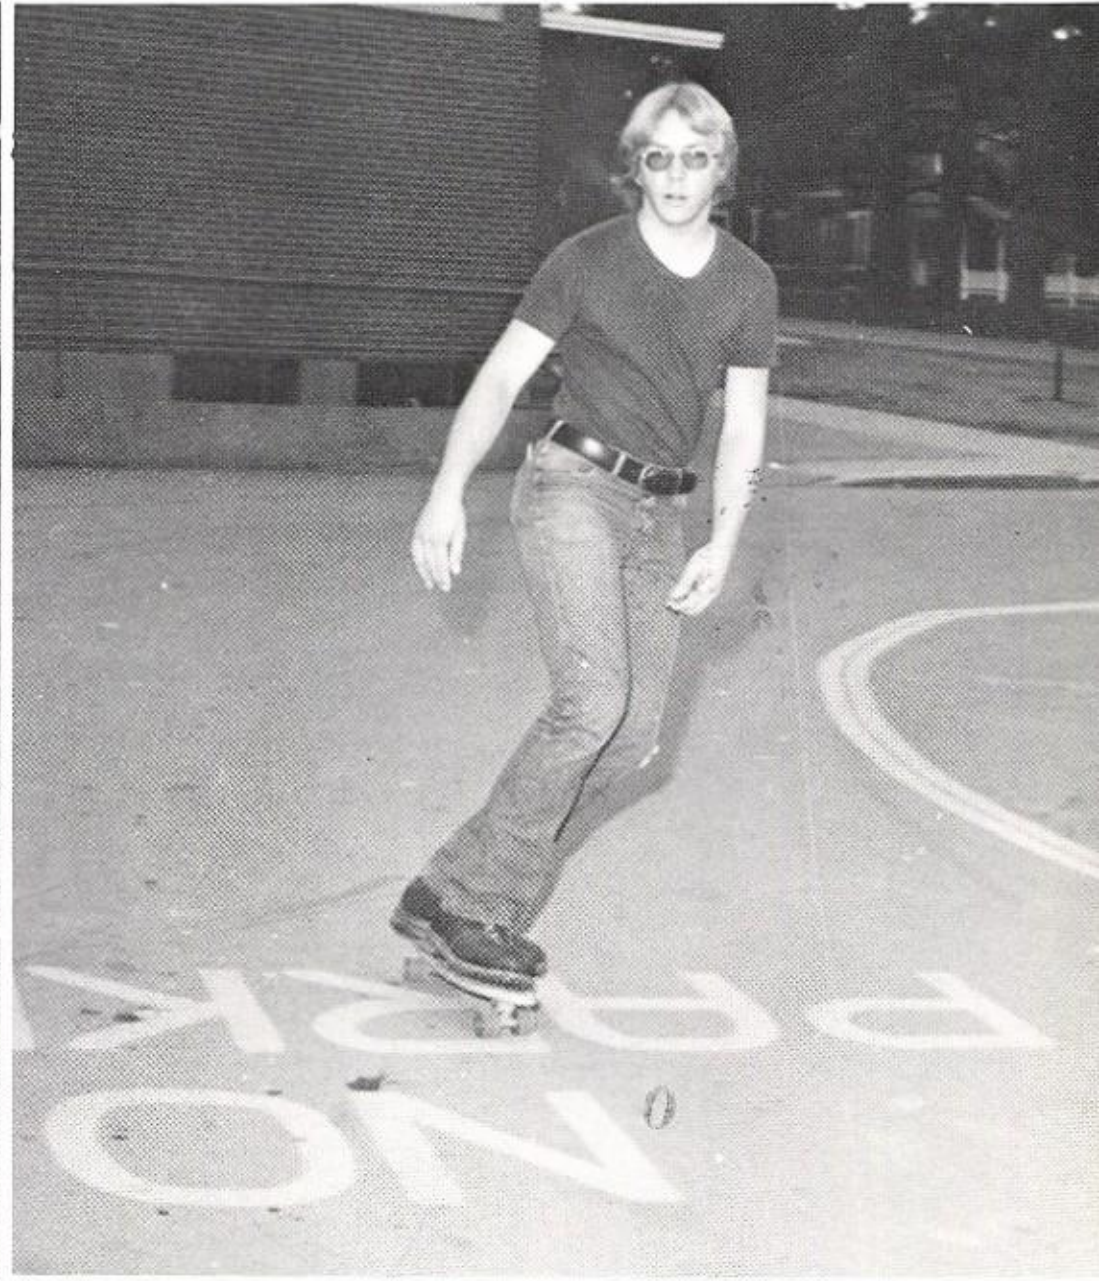

School seems to roll by quickly during the final year at H-L.

And of course just getting to school encompasses many different ways.

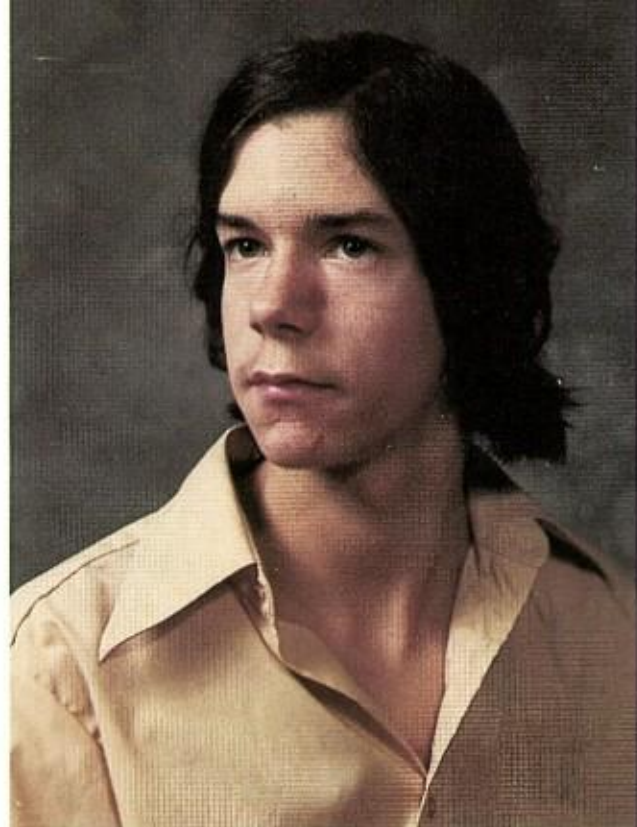

Although some walk, many come on their wheels....of their choice!

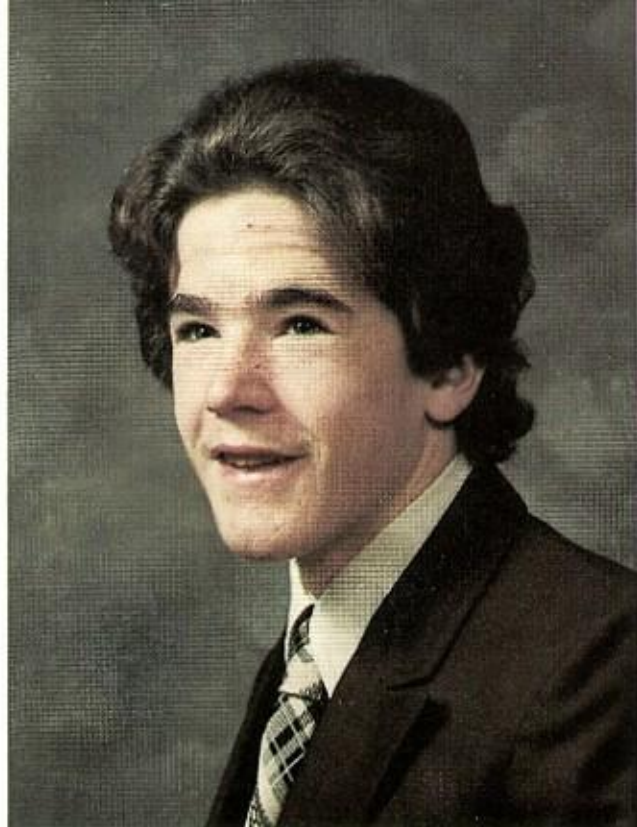

It's always more fun outside, than inside the building so seniors see to it that outside they do their own thing.

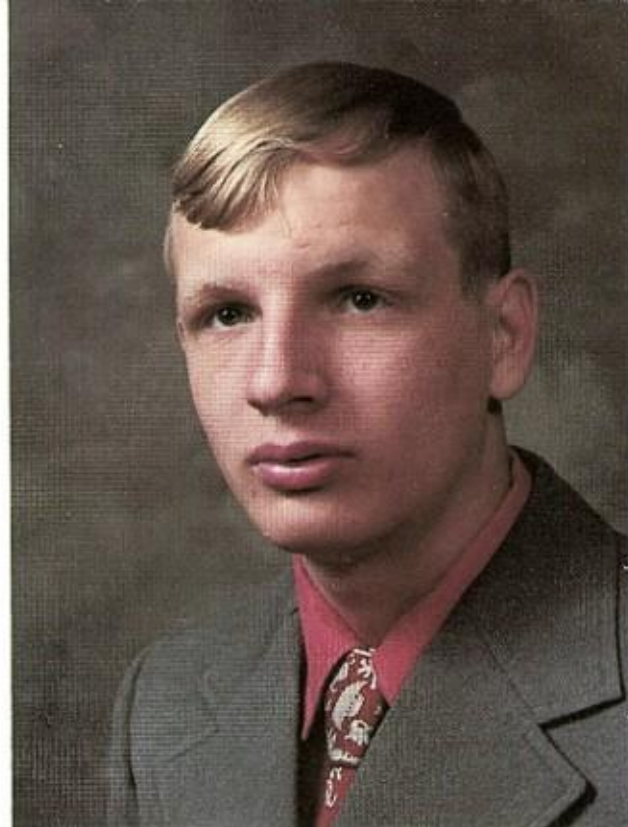

That "thing" most often is talking about what is going on inside!

Once inside there are important things a senior must do... have that important morning chat with Mr. Stengel, that quickie soda and telephone call, hanging around the main office and those faithful morning announcements.

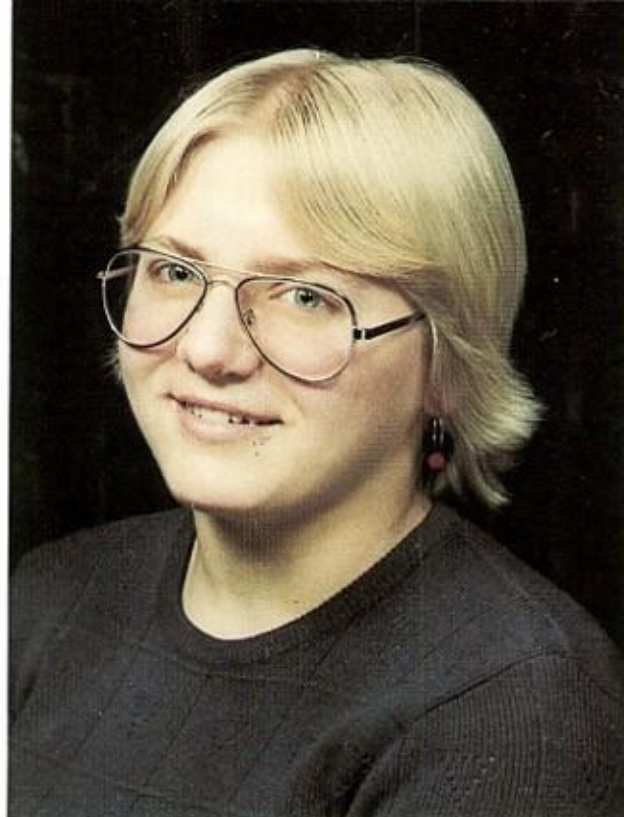

Occasionally a sick call to the nurse is in order; although more likely it will be a visit for a late pass.

In any case if it's a senior, it'll be one starting the day with a smile.

Our Day Is In The Classroom

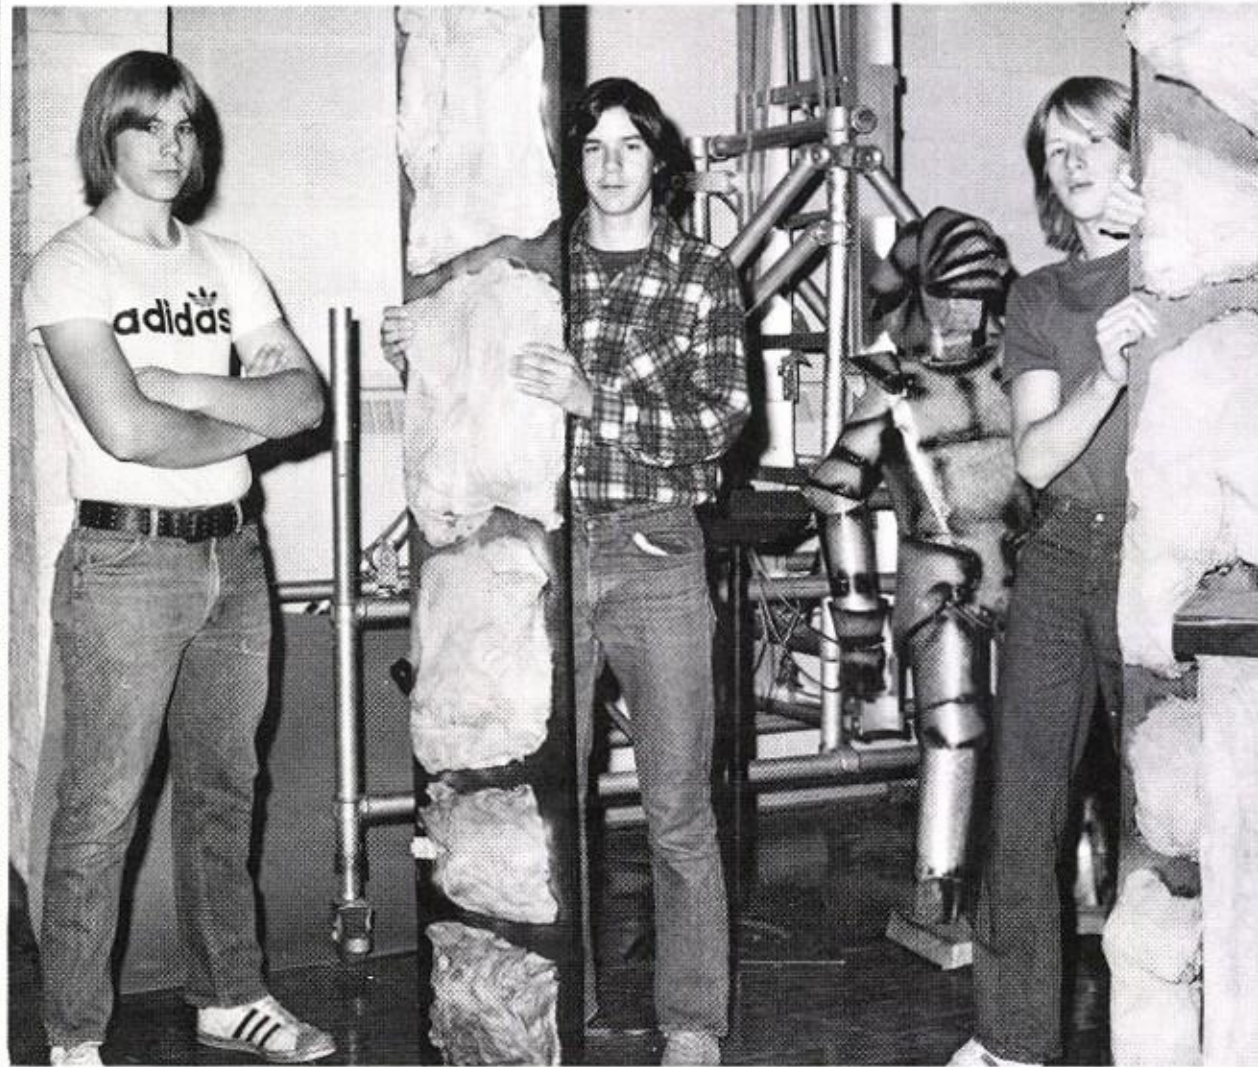

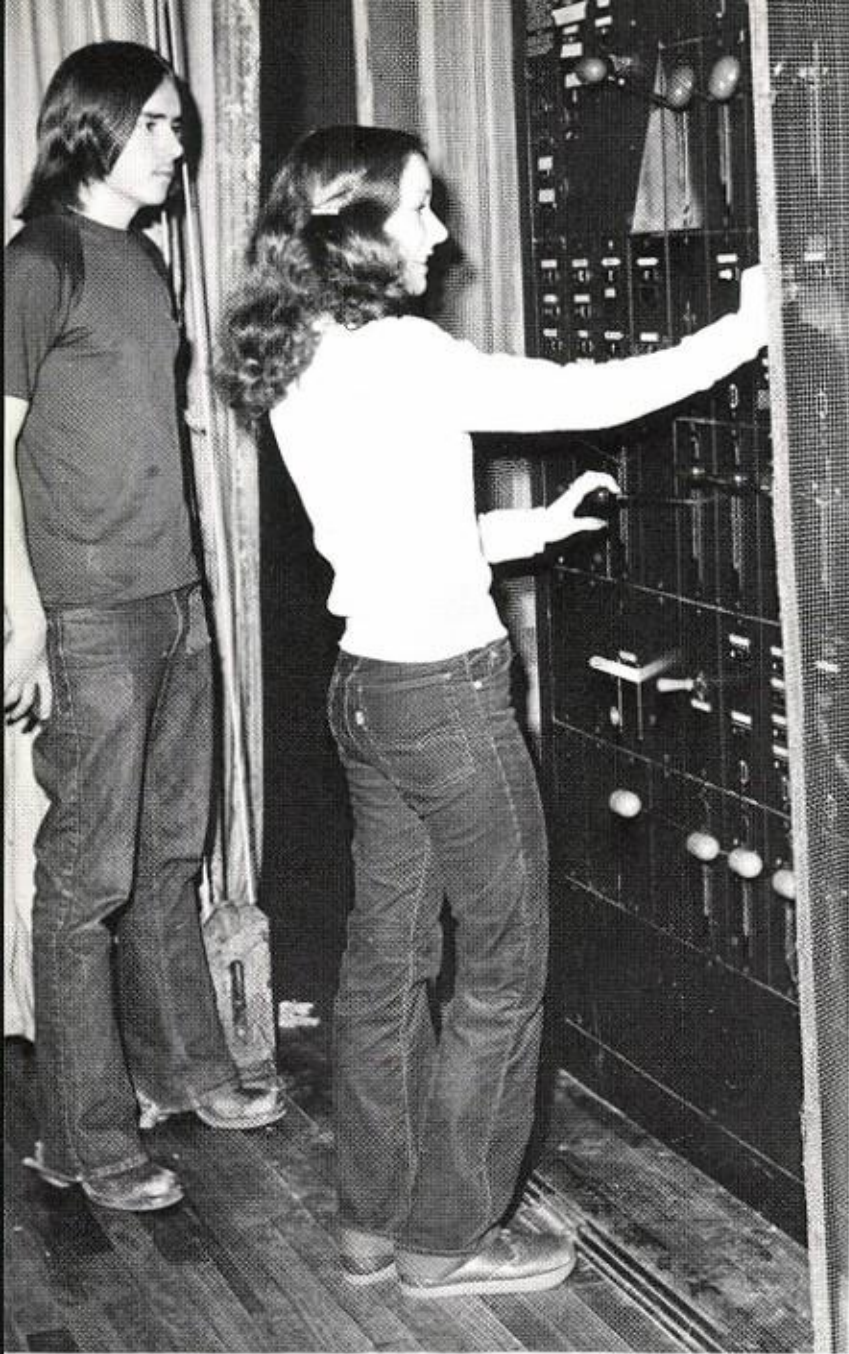

...except when finding an excuse to get to the cafeteria for you know what.

Performing

on stage in the school play, behind the scenes, in concert vocally or with instrument, on the court or on the field and really most important in the classroom that is what being a senior is all about.

Our informal photo essay here has been done in fun. In reality we know and treasure the value of being a senior at Hadley Luzerne. The year has gone quickly. These photos and others will be warm memories you and we shall have. For those looking here who have long ago graduated, may it bring back dreams.

For those looking here who are yet to become seniors may you have as enjoyable and profitable a year as we have had.

Reach out and build; preparations;
new experience

Come enter a world of life's realities;
a world built of those who mature.

Come walk hand in hand with life.
Come climb the ladder of ups and downs,
goods and bads, heartaches and heartbreaks.

Reach out and build; reach out and prepare yourselves
for a experience; we call it life

We're Number One!

... in everything we do at the Middle School. And with that attitude students have taken pride in their special projects, class-work, and athletic endeavors.

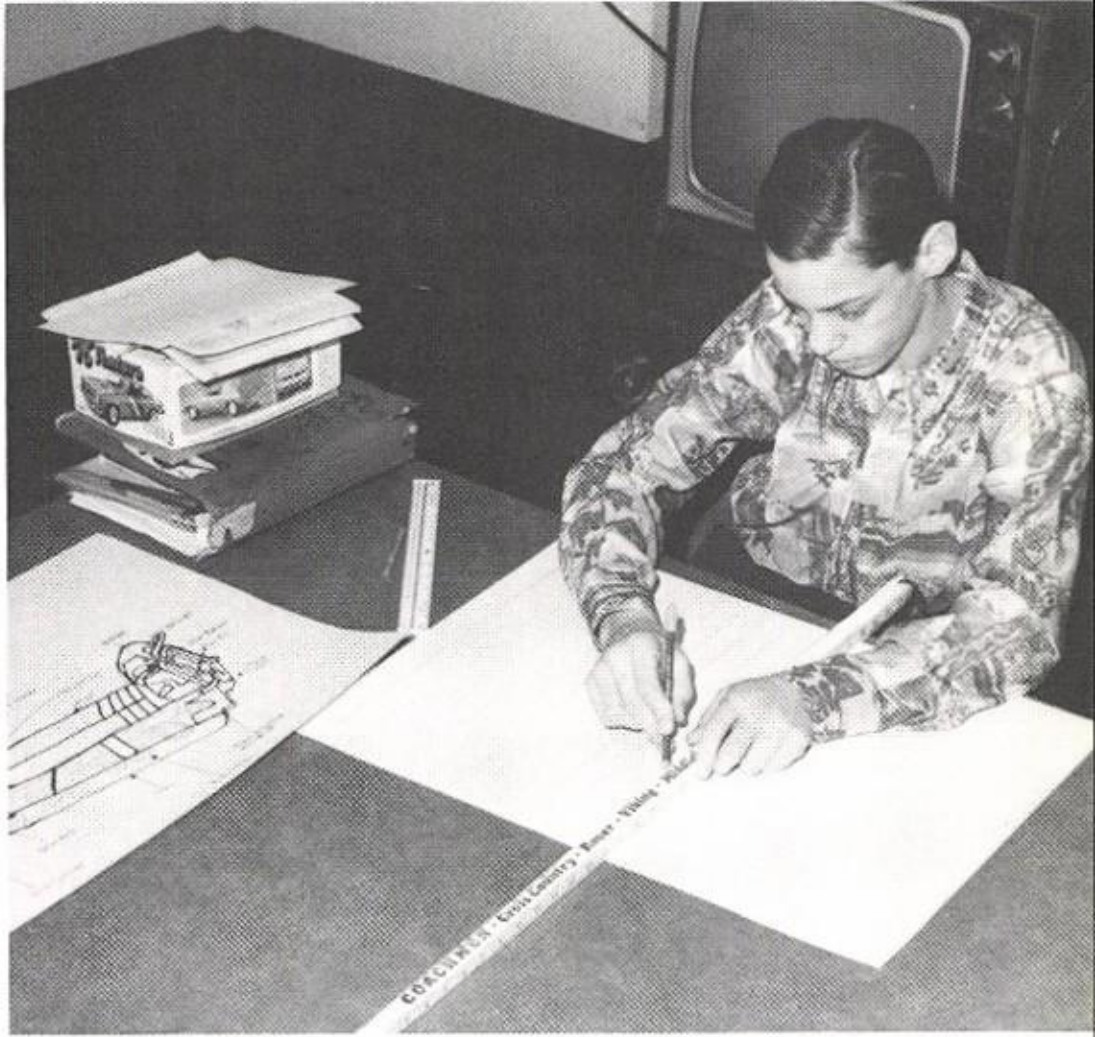

In a friendly atmosphere of study and play the middle school students can explore and find needed answers.

The freedom to work on our own led to many interesting results; and the classroom guidance kept us on the right path!

Companionship means a tremendous amount to students at this age.

The catch all place and time for lots of that is lunch time daily.

However that companionship is there in our classes and in our giving of ourselves through helping others.

Remember, oh so long ago
when we were children?
Remember, it wasn't that
long ago.

A time of pig tails and
fairy tales;
A time of A. B. C. 's and
1, 2, 3's.

A time of innocence and
eagerness;
Always ready and always willing
to lend ourselves,
to something new.

The fun and adventure of a student in the elementary school begins on the way to school when you are never sure whether the crossing guard will be there or some friend helping such as Snoopy.

Other crossing guards included Mrs. Santa Claus and the Easter Bunny.

Of course being in class is where we spend most of our time and that is fun! ... especially when we are lucky enough to have the caring teachers that we do.

Getting shots and sitting in the dental chair are not quite so much fun ... but we do know these people especially care for us also.

Now riding a fire engine .. that's great ... and building and maintaining our own weather station makes going to school sort of super!

Lunch Time! Wha-hooo! We hit the jackpot!!

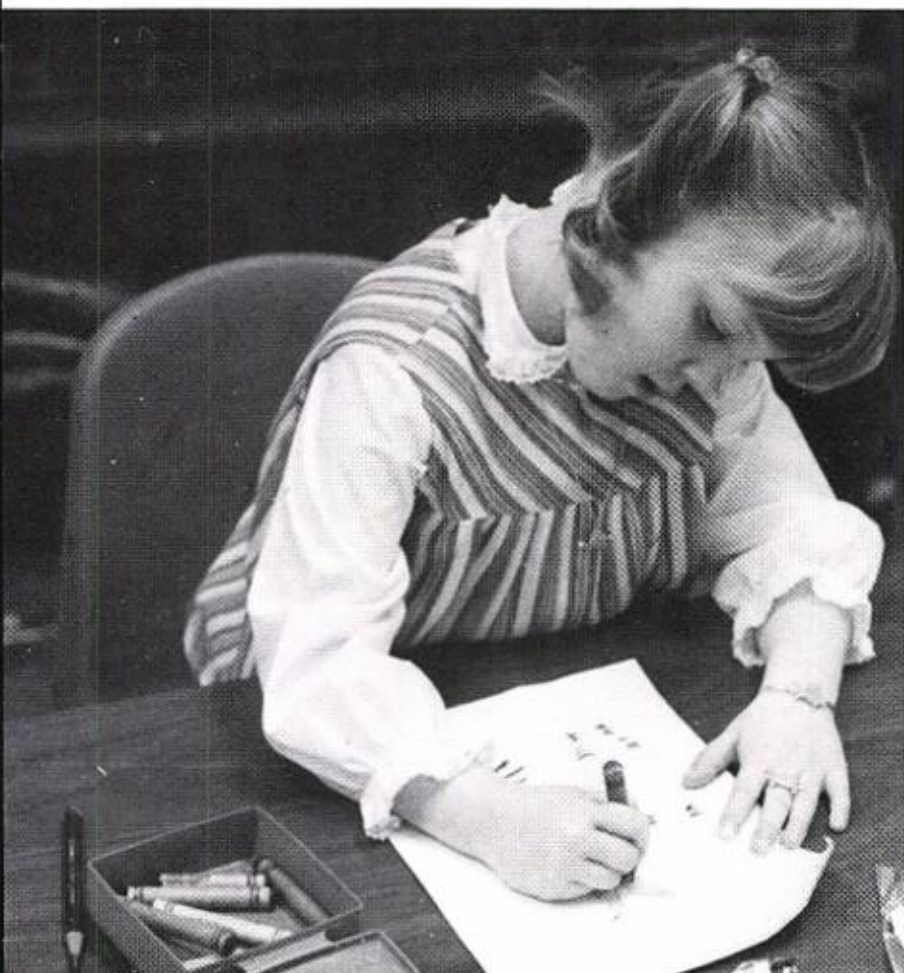

And speaking of people caring ... high schoolers volunteering time to help us with reading and visits from distinguished guests just to talk certainly are evidence of that.

*Boy, Are
We Fortunate!*

We don't just study about our history or other places; we relive them.

And the thrill of singing in our first concert is a highlight of elementary life. Sometimes we work along doing art work and sometimes we all gather to read as a group in media.

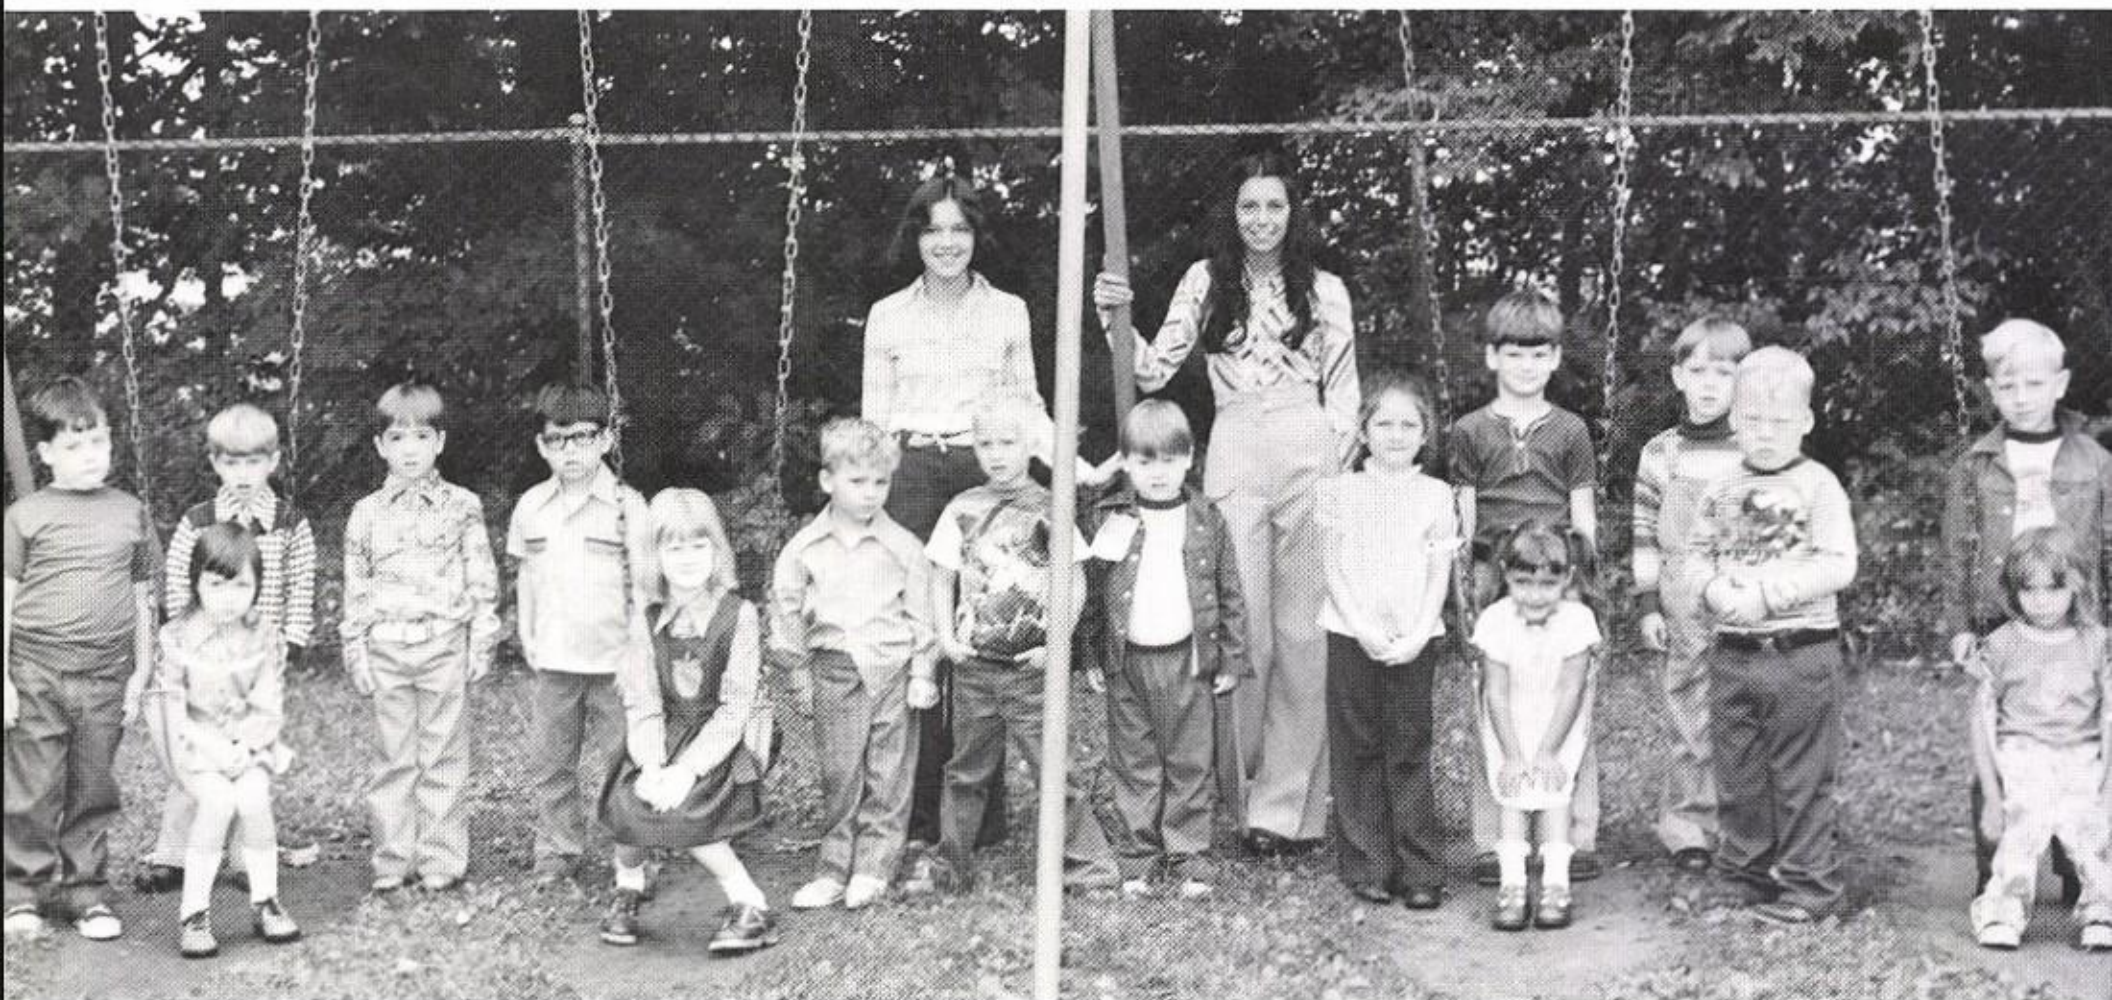

But the most fun is when mommy and daddy come to see us at work and play.

In a way kindergarten is a fantasy come true. Big Bird's presence is just one example of learning really being fun.

Although at this age we are too young to realize it; these golden moments in our first exposure to school will dictate habits and wonders we will carry with us and explore all through our years.

There are so many things we do with pictures draw them, look at them, make up stories about them, learn about them (people and places)

Then even as kindergarten pupils we can earn the right to smile ... knowing that we can learn and will learn and will enjoy all the days ahead in our school

Sports go beyond
the history books and text books.
They delve into a more personal
type of learning.

They teach us those lessons of life
no book ever can.

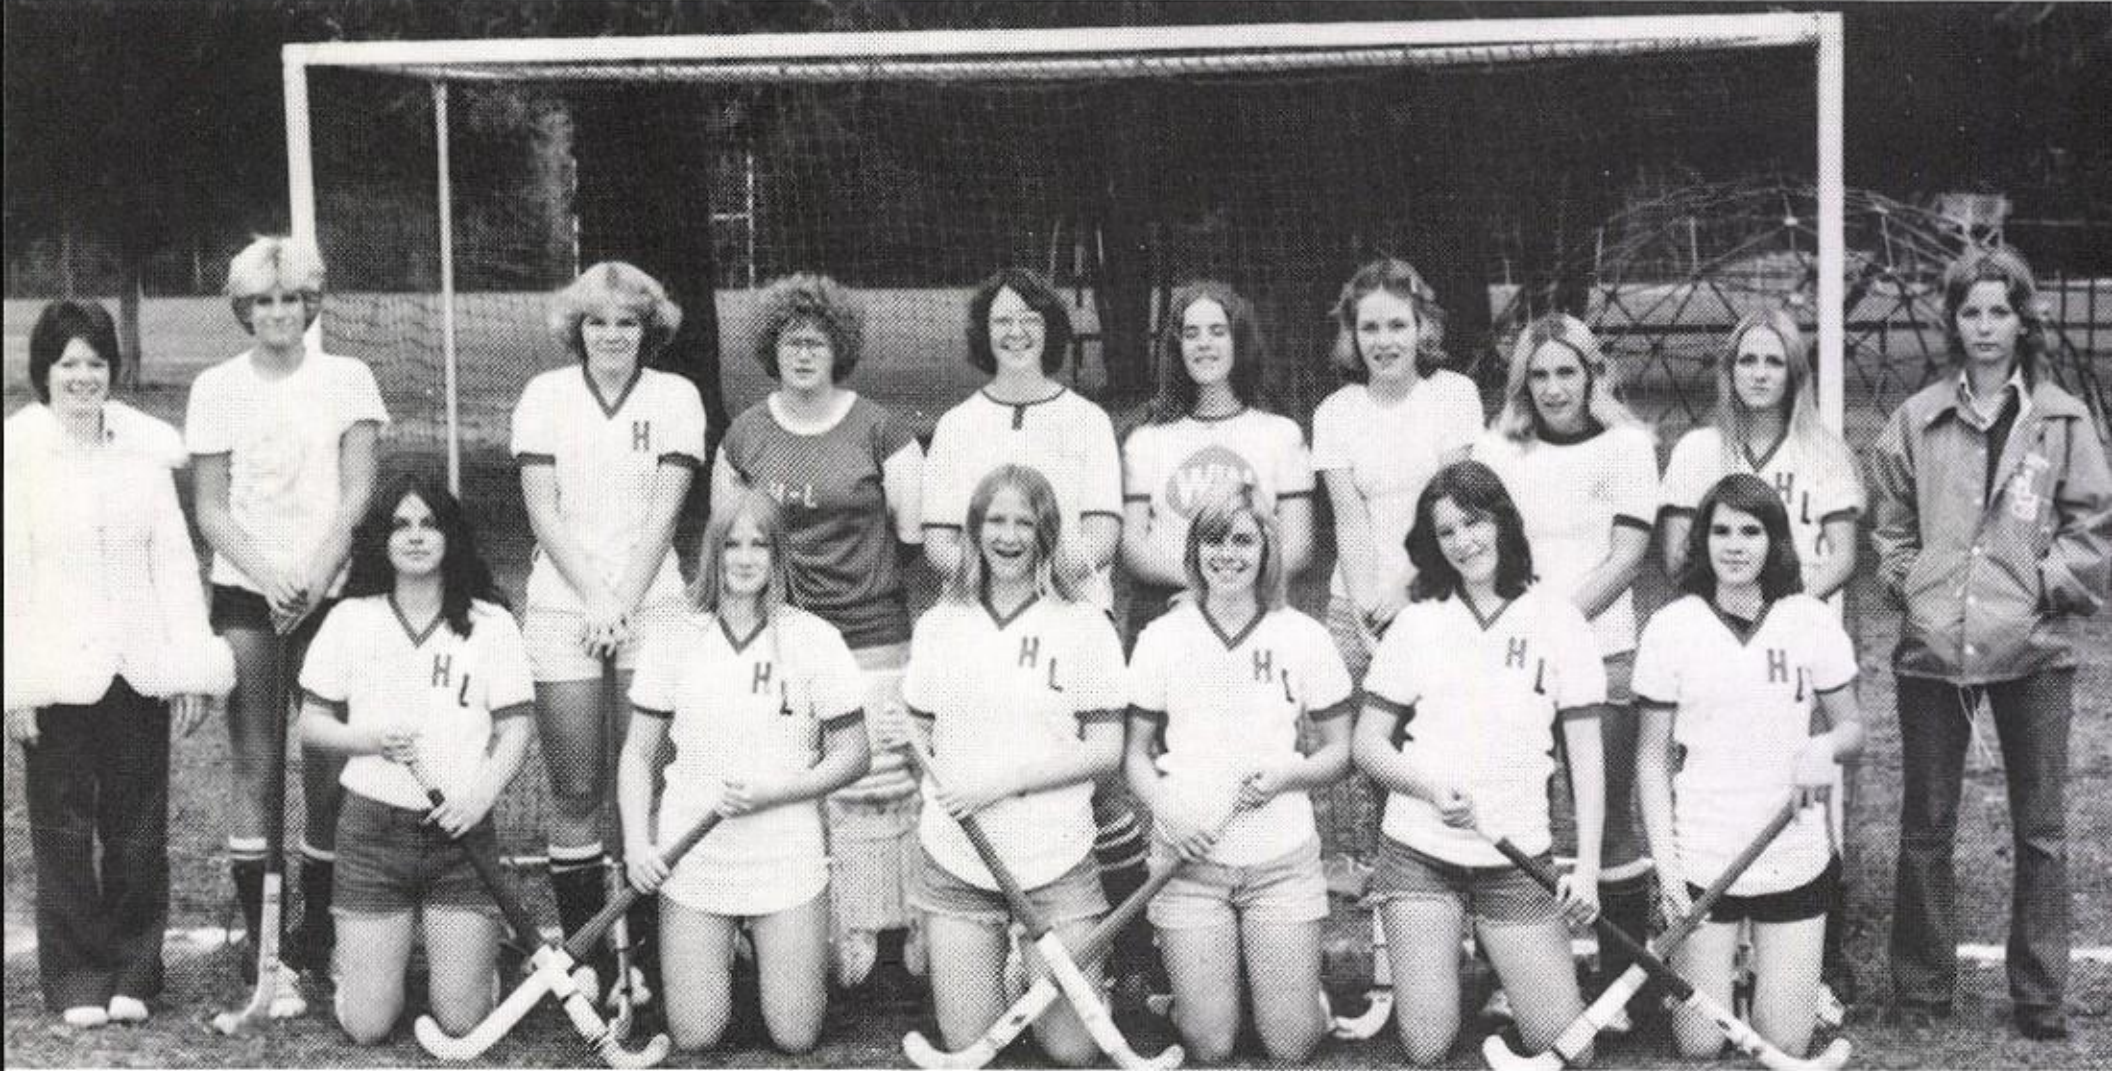

They teach us the true meaning
of competition and sportsmanship,
how to accept a loss and how to
gracefully acknowledge a win.

Football Cheerleaders

It's not whether you win or lose, but how you play the game.

From a won-loss standpoint it was a disappointing season; but never did the Eagles have to leave the field with their heads bowed low for how they played.

Support from the community,
community being our friends and neighbors
Support for us, our school, our book
For this we thank you. We could not exist
without you.

A simple phrase or just a name,
a half page or a whole one
No matter how long or how short
all showing you care.

You show your feelings about our present
and express your hopes for our future

You are our friends, relatives and neighbors
but most of all you are part of our
wonderful memories.

REMEMBERING . . .

** Our country celebrates its 200th birthday as a free nation ** 32,000 attend Beach Boys "Fun, Fun, Fun" concert at SPAC. ** Dorothy Hammil wins the worlds figure skating championship at the Winter Olympics. ** America elects a man from the deep south, Jimmy Carter, to be the 39th President of the United States. **

One Flew Over The Cuckoo's Nest, Murder By Death,
Mel Brook's Silent Movie, The Omen, Bad News Bears, were movies that
"everybody" saw.

Peter Frampton, Bay City Rollers, Silver Convention,
Aerosmith, Jessi Colter, Rick Springsteen, Melissa Manchester . . .
Made '76 and '77 great sounding years.

PLANNING . . .

It's always fun to reminisce and recall "The Way We Were" but now's the time to plan for the future. Perhaps you're getting married and owning your own home may still be a dream for you. Or maybe you'd just like to invest in "The Good Earth" . . .

In Either Case . . . Let's Get Together.

We have dream homes for sale . . . and we have a lot of good investment acreage as well. And we know how to make your ownership dreams come true.

Stop In and See Us . . .
